

Great Burial Reef®

THE FUNERAL HAS CHANGED

BE PART OF SOMETHING SPECIAL™

The Classic™ Before Ocean Placement

Classic™ After 6 months Under Water

Create a Lasting Legacy with the Great Burial Reef Classic™ The World's Most Unique Ocean Burial Reef that Creates Life

The Incredibly Unique Great Burial Reef Classic™

At last... a truly green cremation-based burial at sea vessel that creates life for generations to come! The Classic™ weighs 600 pounds, stands 32" tall, is 26" wide, and is lovingly hand-cast from 100% natural concrete with natural strengthening additives. Its coralized texture and unique shape are scientifically designed to attract and foster marine life, building undersea habitat and memorial eco-communities that will last for generations.

The Classic™ is available for undersea placement from multiple U.S. ports of call* in the Atlantic and the Gulf, with as little notice as 72 hours. Optional private family participation services are available from all ports of call for families from 4 to 400.

*Ocean placement by exclusively licensed service partners

Safe and Secure - How the Remains are Protected

The remains are sealed inside the Care Chamber™ (175 cubic in.) which is built into the core of the reef. The Heart Seal™ lid is then permanently secured with marine grade adhesive by our dedicated service staff, safely and securely protecting your loved one for generations.

Creating Your Great Burial Reef® Life Celebration

Think of the Classic™ as your way to create ***the most peaceful resting place on earth*** for your loved one. With multiple ocean placement ports of call, you can create the perfect memorial service for your loved one when you and your family are ready, on your schedule, and with all of the personal service elements you wish to create your family's private and magnificent day at sea.
